

China Standards and Certification Fact Sheet (June 2009)

INDUSTRY NAME: Energy Efficiency Labeling

China implemented its [Energy-Efficiency Labeling Administration](#) on March 1st 2005, and authorized China National Institute of Standardization (CNIS) as the filing organization. China has so far announced four batches of products including 15 categories that are required to comply with the regulation. Producers or importers should conduct self declarations and attach the appropriate label on their product. SAC has promulgated about 29 national standards related to energy efficiency, consumption limitations and evaluation to support the regulation. All products require China Compulsory Certification (CCC) as well before being sold in China. On June 1, 2009, the Chinese government began a financial subsidy [program](#) for manufacturers of energy-efficient products.
